Evaluation Plan

The evaluation component of this process is extremely important because it allows FIRST 5 Modoc to measure how our investments are making a difference in the lives of babies and young children. By statute, Proposition 10 dollars must be spent in a manner that achieves measurable results. You are part of those results!

If you are funded, you will be reporting your progress to FIRST 5 Modoc as required in your contract. This progress report will consist of a report on each of your indicators, as you list them on your Project Outcomes Chart (Exhibit E-2). In addition to possible quarterly reports, there will also be a Final Evaluation Report at the end of your project.

Your narrative should describe what you want to accomplish with this proposal. Your Project Outcomes Chart should give you the tools to show FIRST 5 Modoc if you have accomplished the goals you set for yourself. It should also allow you to identify problems or unforeseen barriers that may have hindered your proposal from achieving its full potential.

Exhibit E-2 is the Project Outcomes Chart. Please submit a completed copy of this chart as part of your Formal Proposal. Please refer to the First 5 Modoc 2020/2025 Strategic Plan for a list of current goals, objectives and related indicators. **FIRST 5 CALIFORNIA is requesting data input from county commissions and their grantees. FIRST 5 Modoc reserves the right to make reasonable data requests from grantee.**

Terms to understand when completing the Project Outcomes Chart:

- **Strategic Plan "Priority Areas" (Page 1 in Strategic Plan)**
Your proposal must target Priority Areas in the Strategic Plan. FIRST 5 Modoc welcomes proposals that target any of the Priority Areas in the current Strategic Plan. It is understandable that your project may touch on a number of Priority Areas but please consider which of the Strategic Plan Focus Areas will be the specific focus **of your proposal**. List these Priority Areas at the top of your Project Outcomes Chart. (Next page)
- **"Strategy" and/or "Activities"**
What is the program, service or project you are proposing? What steps will you take to make it happen? It is reasonable to assume you will have more than one strategy and/or activity.
- **"Output" and "Outcomes"**
Expected output or outcomes are the measurable changes after a program activity is underway during the implementation period. Outputs or outcomes may include, but are not limited to: numbers, services, behavior, knowledge, skills, and status. The Strategic Plan Priority Areas include a list of possible indicators that may help guide you in the development of your output and outcomes.

 Developing written outcomes requires careful thought about the expected impact of a strategy and/or activity.
Who or what is expected to change or benefit? What/how much change or benefit is expected? Where will the change occur? When will the change occur?
